Education

KIIT University, School of Computer Science Engineering

2023 – 2027

Bachelor of Technology in Computer Science Engineering(CSE)

CGPA:8.27/10

Bhubaneswar, Odisha, India

Technical Skills

- **Languages:** Python, SQL, C++, JavaScript, Java , C
- **Framework and Tools:** Git, GitHub, Postman, VS Code, IntelliJ, Spring Tool Suite, SpringBoot, PySpark
- **Web Development:** [React.js](#) , CSS, HTML
- **Databases & Cloud:** MySQL
- **Tools:** VS Code, Spring Tool Suite, IntelliJ
- **Concepts:** Microservices Architecture, REST API, Data Engineering, Data Warehousing ,Fast API
- **CS Fundamentals:** Machine Learning , AI- ML, Object-Oriented Programming, Operating Systems , Computer Networks , Data Structures and Algorithms

Projects

- **[Portfolio Website](#) :**
 - Tech Stack:** React.js, Vite, Tailwind CSS, JavaScript, EmailJS, Git, GitHub, Vercel
 - Built a **fully responsive personal portfolio website** with **React.js** and **Tailwind CSS**, optimized for all devices.
 - Implemented a **modern component-based architecture** with reusable UI components and clean state management using React hooks.
 - Deployed the application on **Vercel** with continuous deployment via **GitHub**, ensuring automatic updates on every code push.
 - Focused on **performance, clean UI/UX, and accessibility**, following modern frontend best practices.
 - Version-controlled the project using **Git**, maintaining meaningful commits and professional workflow.
- ***AI Resume Analyzer* :**
 - Tech Stack:** *Python, FastAPI, React, Scikit-learn, NLP*
 - Designed and developed an end-to-end AI Resume Analyzer using FastAPI and React to evaluate resumes against job descriptions.
 - Applied NLP preprocessing, TF-IDF vectorization, and Cosine Similarity for semantic resume matching, with automated skill extraction and ATS-style evaluation.
 - Built REST APIs for PDF parsing, resume analysis, skill gap detection, and personalized resume improvement recommendations.
- ***Quiz App with Result Tracking:***
 - Built a full stack Quiz App with React(Vite) as frontend and SpringBoot+MySQL as backend.

- Tech Stack:** Spring Boot, MySQL, REST API, React.

- ## Achievements

- **Google Big Code Challenge 2026:** Successfully qualified the qualifier round and Round 1
- **Google Girl Hackathon 2025:** Shortlisted for Google Girl Hackathon and was a part of Learning Cohorts, Cleared the OA round
- **Myntra HackerRamp 2025** - Participation
- **TVS e-Credit IT Challenge 2025** - Participation
- **Gold Medallist** in International English Olympiad
- **Coding Ninjas:** Solved **325+ DSA problems**, **Ace Coder (2x)**, **Leaderboard Legend (5x)**.
